

HOMELESS IN THE SUMMER

Many people think the needs of the homeless are less severe during the warm months. But the reality is ...

SUMMER IS ONE OF **THE MOST DANGEROUS** TIMES OF YEAR TO BE HOMELESS.

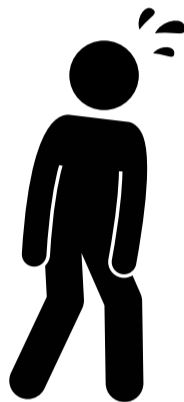

WHEN YOU ARE LIVING ON THE STREETS IN THE SUMMER YOU'RE AT **HIGH RISK** OF...

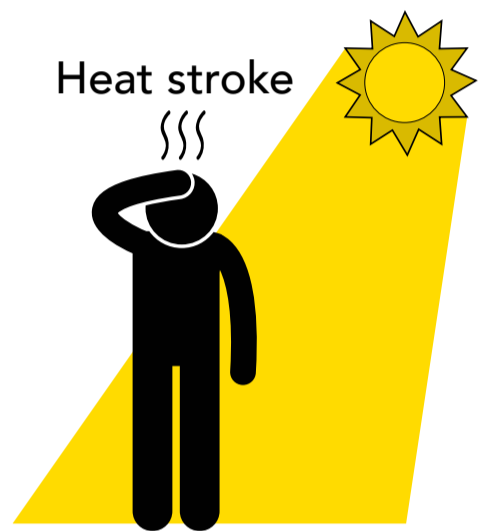

Food poisoning

Dehydration

Heat stroke

Getting access to

fresh food

water

cool shelter

is a matter of **life or death** to our hurting neighbors.

PHYSICAL DANGER IS JUST THE BEGINNING

For many homeless neighbors, the uncomfortable feelings of being hot, sweaty and dirty brings a deep level of **shame and embarrassment**.

sometimes, taking

a shower

is even more important than a good meal

Your **gifts** can provide both and more.

Thank you for making this a **summer of hope**
